LAPSED INTO DULLNESS

Yet the Undertone of Speculation Was Strong-Money Market Easy.

Uniform Rates will be charged to all, all LOSSES will receive fair and conorable attention.

New York, April 7.—The speculative element regarded the day's stock market as slow. The sales for the day in themselves indicate a deep cut day in themselves indicate a deep cut in the volume of the market from the recently prevailing average. Then, though the reactionary tendency of yesterday was arrested and some sign of recovery effected, the renewed advance lacked vigor and breadth. The speculative element had an explanation for the halt that they themselves and large operators in general were disinclined to enter on extensive new and large operators in general were disinclined to enter on extensive new commitments with a three-day closed interval facing them at the end of the week with the Easter holidays. In spite of the lapse into dulineas the undertone of the speculation was strong. Events of an unfavorable nature were disregarded or treated with no other apparent feeling thm relief that they were disposed of. Outside of the coalers the strong sto is were found amongst industrials and such minor railroad stocks as are classified with the specialties. Specific news to account for these moves was lacking and these were attributed in part at least to professional manipulation. at least to professional manipulation for sympathetic effect in sustaining prices in the general list. Atchison was only slightly affected by the keeping of the dividend at the odd rate, though speculative rumors were in circulation at one time of an intention to advance the rais. London sold some stocks in this market, especially U. stocks in this market, especially U.
S. Steel. Reports from the steel trade
continued somewhat discouraging, but
the demand which has sprung up for
structural steel at the low prices is
considered an important augury of
construction and improvement on a
large scale in many cities. London's
selling of stocks helped to stiffen the
foreign exchange rate and kept alive
discussion of a possible resumption riscussion of a possible resumption of rold exports. The extreme case in more market leaves the subject with little interest. Bonds were firm. Total sales, par value, \$5,878,000. United States bonds were unchanged on call.
